Exchange of Notes Explains
Actions of Both Sides in
Neutral Zone.

(By Associated Press)

Paris, April 6.—President Millerand today formally notified the German Charge d'Affaires of the action of the French government in ordering the advance and informed him that as soon as there had been complete evacuation of the neutral zone by the German troops, the French would evacuate the cities they have been ordered to occupy. The President's note reads: "By my letter of April 2d, I asked you to make consistent representations to your government to obtain the immediate withdrawal of the German troops occupying the neutral zone fixed by Article 22 of the treaty of Versailles. My request having obtained no result up to this time I have the honor of informing you that the general in charge of the Army of the Rhine has received orders to occupy immediately the cities of Frankfurt, Hamburg, Hanau, Darmstadt and Dieburg. This occupation will end as soon as German troops have completely evacuated the neutral zone."

125 out of the 250 precincts in that peninsula, however, was Wood 10,742 and Johnson 5011. Herbert Hoover whose name appeared at both ballots was leading the democratic ticket with 11,469 against 10,250 for General Edwards of New Jersey. Win. H. McAdoo had 9248 and W. J. Bryan 7207. Reports from the western part of the states were not returned and the rural districts might not become available for 48 hours owing to disturbed wire communication and impassable roads caused by Sunday's snow storm.

SIMS FAILED TO MAKE GOOD SAYS ADM. WILSON

Washington, April 6.—Vice Admiral Sims' employment of American destroyer forces in European waters during the first year of this country's participation in the war, was severely criticized by Admiral Henry B. Wilson, commander of the Atlantic fleet, in testimony before the naval board investigation held at the Naval Yard, Washington, today.

Basing of all destroyers used in conveying American troops and supplies transports into French ports on

Queenstown, instead of Brest, up to the spring of 1918, Admiral Wilson declared, meant that the destroyers "worked only one way" and wanted mileage in the long trip back to Queenstown for refueling. If originally based had been their base, he declared, these destroyers could have worked "both ways" and thus made to render their maximum service as was demonstrated some eight months later when this plan was permitted.

Whole families went to court, the babies being left outside. When the parents emerged, having obtained time to hunt for other apartments their joy was increased by the fact of nothing out of their children, many of whom had exchanged carriages. Most of the landlords agreed to postpone evictions until July. Every tenant found his appeal to the court successful, the landlords being ordered to postpone evictions from one to six months.

General interests in the situation have been begun by newspapers here as to whether the allies will support France and to what extent.

TIPSY HOLDUP MAN HAS FUN IN NEWPORT

Pulls Off Real Wild West
Stunt and Gets Away
With It

Newport, April 6.—After evading the police at this place early yesterday Bert Stone struck a posse of farmers which proved too much for him at Goshen. He was captured and is now in the police station here, waiting a hearing.

Stone, it is alleged, entered the Boston Cafe here at 1 o'clock yesterday morning, drew a revolver and ordered the attendant to hand over his money. The attendant gave the man \$50 but not \$100 he had in a pocket. After securing the money the robber backed to the door and then backed to his horse and buggy, which stood in waiting in front of the restaurant, jumped in and drove off.

He did not leave town. A few minutes later he gave "Billy" Hamilton the scare of his life when he looked up from his work in his lunch cart and found a revolver staring him in the face. "Billy" immediately gave up \$7.10 all he had. The intruder then sped into the darkness.

The police immediately took up the chase. Goshen residents were also notified and an armed force was soon organized. Finally the robber came in sight. As he drew near the waiting posse ordered him to stop, which he did, pushing his revolver in sight and making threat. He did not have the opportunity to do any damage as W. H. Nelson, who was armed with a rifle, took a snip shot, knocking the revolver from the man's hand.

Disarmed, Stone gave himself up. He was guarded until the arrival of Chief of Police Hastings of Newport, who took him back to Newport where Dr. J. L. Cain dressed his wounded hand. Stone, it is alleged, came from a lumber camp at Cherry Valley, W. R. Nelson of Goshen, who shot Stone said:

"We formed a posse, including myself, John Goshen, W. Howe and two sons and Harold Hanson. We waited in the road until we heard his horse coming and as he crossed the bridge we ordered him to stop. He slowed down his horse and said: 'Say, fellows I have got some money for you boys if you let me get by.' I told him we couldn't do that and then he stood up in his buggy, drawing his revolver.

"I was at the horse's head, armed with a small rifle. Fearing he would shoot I took a snip at him. The bullet hit his hand, knocking the revolver to the floor of the buggy, where Mr. Howe picked it up. He then gave in and said: 'Well, you have got me, I'll go along.' We took him to Howe's house, where he told us all about the holdups at Newport. He said he was from New York city and had been working at the lumber camp at Cherry Valley. He appeared to have been drinking.

FRANCE MOVING TROOPS INTO GERMAN CITIES

To Occupy Cities on East Bank of the Rhine Today to Punish Germans for Sending Troops into Ruhr District.

(By Associated Press) Mayence, April 5.—The French troops will occupy Frankfurt early tomorrow. Some of the divisions have already begun movement.

Paris, April 5.—The attitude of the French government as a protest against the German troops entering the Ruhr district, was explained in a note issued tonight. After saying that Germany claimed no hostile design and wished to resume normal relations, the note declared that the German government had given way to the pressure of the military party, "not fearing to bring the imperative and most solemn stipulations of the Versailles treaty."

The note for the information of the Allies minimizing the situation, does not clearly show that German military demonstration is uncalculated for by the present situation and that it would be attended by greater danger to the populations and the men in the field. The note points out that if the German government had carried out the disarmament agreement of the Treaty, the Ruhr revolution and the present Red Army would not have been possible. The situation created by the abrupt offensive of the German troops in the Ruhr district, obliges the French government to consider military means. The executive of which can not be deferred and whose sole object it is to bring Germany to a due respect for the treaty.

Dusseldorf, April 5.—The advance of the Reichswehr troops in the Ruhr continues and Oberhausen, Dortmund and Luedenscheid were occupied today the only opposition being offered by a few hundred communists. Communications with the towns has been cut.

MILITARY TRAINING WILL SAVE COUNTRY

(By Associated Press) Washington, April 5.—Unpreparedness of the U. S. before the war, was directly responsible for the terrific loss of lives and materials declared Senator Wadsworth of New York in opening the discussion on the senate army reorganization plan. In regard to the military training plan for young men of 18 to 32 years he said that it would be unfair to ask the veterans of the world's war to fill the roll of the defenders of the country. The bill sets up a military policy that emphasizes the

dependency of the country upon the private soldiers. He declared that the estimate of a billion dollars cost was wrong it would not exceed \$654,000,000. The plan for a gradual reduction of the regular force of 280,000 men and 17,000 officers to 210,000 men and 16,000 officers in five years, he believed would equal in cost the difference of the universal training and the House bill which provides for a standing army of 300,000.

UNION MEN MAY BREAK CHICAGO STRIKE

(By Associated Press) Chicago, April 5.—A break of several thousands of insurgent switchmen in the Chicago switching district was predicted by A. F. Whitman, vice-president of the Brotherhood of Train Workers. He said that several hundred more will come tomorrow to take the place of the insurgents.

LOWELL CAN'T GET ANY COAL

Lowell, April 5.—No adjustment of the strike Monday of the 350 teamsters, chauffeurs, helpers and yardmen employed by the local wholesale and retail coal dealers in view. Not a delivery was made Monday. The suffering from cold among the householders is said to have been considerable. The strikers ask for a 15 per cent wage increase and a reduction of the working hours from 54 to 50 hours a week. The employers say they recently raised the price of coal \$1 a ton so as to meet an 8 per cent increase, which the men reject, and add that they cannot grant a further increase without again adding to the retail cost of coal. The men are now receiving: Chauffeurs, \$28.75; double horse teamsters, \$27; single horse teamsters, \$21.15; and yard help \$23.00. They want: Chauffeurs, \$33; double horse teamsters, \$30; single horse teamsters \$27.75; and yard men \$27.14.

SIMS WRONG IN DESTROYER DESIGNATIONS

Washington, April 5.—Vice Admiral Sims' employment of the destroyer force in European waters during the first of the war was severely criticized by Admiral H. B. Wilson, the commander of the Atlantic Fleet before the naval board of inquiry as to the removal of Adm. Fletcher in command of the station at Brest today. He said that basing of all of the destroyers at Queenstown instead of Brest meant that the destroyers worked only one way and that mileage was wasted in their returning to Queenstown. If they had been at Brest they could have worked both ways, and been as successful as they were in the last eight months of the war.

MUSTERING FORCES FOR PEACE FIGHT

(By Associated Press) Washington, April 5.—Republicans and democratic leaders in the House today to round up their forces for the big fight over the joint resolution declaring peace with Germany which will come up Thursday. The Republicans are confident of carrying the resolution in the House and Senate, but the Democrats declare that the president will veto it.

Bishop, one-time president of the New Haven road, died at the Bridgewater Hospital Sunday from wounds inflicted in himself with a hunting knife while in a fit of melancholia. His companions left the cellar before the "demonstration" was completed and found the Bernstein boy dead upon their return.

FEDERAL GOV. STOPS PICKETING

Women in Front of British Embassy Arrested Under Law Making It a Felony to Insult a Diplomat.

Washington, April 5.—The Federal government moved today to put a stop to the picketing of the British Embassy by women sympathizers of the Irish republic. U. S. District Attorney Lusk informed Matthew O'Brien counsel for the women that if his clients insisted they would be prosecuted under a federal statute which makes it an offense to insult a diplomatic representative or to his home a felony punishable by imprisonment in the federal prison. He communicated his decision to the Commissioner of Police of the District.

Captain Doyle and two police women drove to the embassy in the patrol wagon and found two women there with banners. They were from New York and Captain Doyle informed them of the decision and ordered them away. They refused and they were taken to the station and after being held for half an hour released on orders of District Attorney Lusk.

Buxton, April 6.—The Swanscott lodge, Knights of Pythias was 50 years old Monday evening when the event was fittingly observed, including a banquet and roll call of its members, while some of the grand officers were present. The grand staff included grand chancellor commander, Edward J. Smith of Manchester, and grand keeper of records and seals, Charles M. Carson of Dover. At the banquet past grand chancellor, commander, Fred A. Moore presided, and addresses were given by the grand officers and members of the lodge, some coming from Farmington, Green, R. L. Boston, Lynn, Haverhill, and Leary.

The lodge, which was instituted on April 6, 1870, contains two of its charter members, Frank B. Rollins, past grand chancellor, and past supreme representative, and J. Warren Thibault, past grand chancellor.

The Swanscott lodge comes within two hours of being the oldest lodge in the state, Pioneer lodge, No. 1 of New market being instituted on the same night but is two hours older.

The banquet last evening was served by the Daunt Temple of Pythian Sisters. The committee of arrangements consisted of Fred A. Moore, chairman, J. Warren Thibault, Harlan M. Philbrook, Frank M. Chley and C. Fred Piffard.

Gifts to Children

Teach them to make their own Jiffy-Jell desserts and serve in dainty ways. See offers below

To Every Child

Serve this week a real-fruit dessert

Jiffy-Jell, above all else, is the dessert for children.

They revel in it. Five times the cost can serve them nothing half-way so appealing.

It means real fruit—a wealth of it; the fruit that children need. Accept these offers this week—let them know Jiffy-Jell.

Crushed fruit in it

Jiffy-Jell is the new-style quick gelatine dessert which millions have adopted.

The fruit is not a mere flavor. Each package contains a bottle of liquid-fruit-jelly essence.

We crush the fruit, condense the juice and seal it. It makes Jiffy-Jell a real-fruit dainty, rich in fruit.

We crush half a pineapple in Hawaii—fruit too ripe to ship—to make the flavor for one Jiffy-Jell dessert. So with all fruits—the fruit essence is abundant.

Less than apples cost

Yet Jiffy-Jell, with its rich, rare fruits, costs less than apples cost.

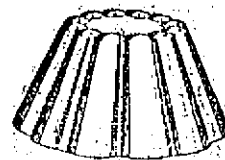

It comes ready-sweetened. It comes acidulated with lemon or grape acid. The fruit essence comes in a vial. Simply add water and a package will serve six in mold form, or twelve if you whip the jelly.

No other fruit-made dainty costs so little or is so inviting.

Try pineapple-flavor and loganberry. Try lime-fruit-flavor for a tart, green, salad jelly. Try mint for a mint jelly to serve with meats.

Let the girl make it—teach her housekeeping. Then use the trade-marks to get molds, cups, spoons, etc. Teach them dainty ways of serving.

Buy enough Jiffy-Jell to get the molds you want. Then watch how the children enjoy it. See how it changes your dinners. Don't let your children longer miss what millions of children get!

DEKAY GIRL'S BODY IN LAKE

Chicago, April 6.—The body of Jeanne Anna Dekay, 20 years old, protégée of Miss Jane Addams, whose disappearance from Hull House on Dec. 30 was followed by a national search, was found Monday in Lake Michigan, near the Municipal Pier.

Mrs. Gertrude Howe Britton of 1115 Rogers identified the body. Except for a coat and hat which were missing the clothing on the body was the same as Miss Dekay wore when she disappeared. A scar on the left

temple and smallpox marks under the eyes assisted in the identification. Mrs. Britton said she was convinced the girl had committed suicide. No evidence of violence was found on the body. Coroner Hoffman said the body had been in the water three months.

Miss Dekay was the daughter of John Wesley Dekay, now residing in Switzerland. She was sent to Chicago by her father soon after her graduation from a London boarding school.

The Real Remedy.

At the recent meeting in Springfield, Mass., of the Rotary Clubs of New England, John N. Dyer of Indiana, first vice president of the International Association of Rotary Clubs, made an address in which he presented what seems to him like the cure for the high cost of living. He said: "The cure for the high cost of living is the ten-hour work day until such time as production exceeds consumption and a surplus is laid by for the proverbial rainy day. When production exceeds consumption, costs will decline. The greatest problem confronting us pertains to the rising costs of everything. Its solution awaits a change in the hearts of men. There must be a necessary reaction from the grasping attitude most of us take toward life. We are buck passers—most of us."

This is in line with what has been said by others. More than one student of affairs has said that production, and more production, is the only remedy for a condition of which practically everybody is complaining. Mr. Dyer speaks of the ten-hour day, which is only one way of depicting greater production.

At first thought this probably will not strike the workers favorably. The popular idea among them at the present time is to strive for shorter hours and more pay. They realize that restriction of production increases the price of the commodity, but seem to forget that the high prices must necessarily come directly home to them. And when these come relief is sought in higher wages, another thing that increases the cost of production, which in every case must be paid by the consumer.

The idea of increasing production until it overtakes consumption is somewhat old-fashioned, but it is sound nevertheless and will have to be adopted before the cost of living can be brought down to any appreciable extent. The grasping attitude of which Mr. Dyer speaks will have to be abandoned if the people are to work their way back to conditions which will make living less strenuous and exasperating than it is now.

Every move of organized labor today is calculated to keep up and increase the cost of production. That increased cost must necessarily be reflected in prices. The result is that wages go up one day and prices the next, with no relief in sight. Lessened production is the remedy for falling prices, as has just been illustrated in Boston, where a lot of fishing trawlers have been tied up to keep the price of fish from dropping below the desired point. As long as that sort of thing is practiced there will be little use in looking for a reduction in the cost of living.

Grasping, as Mr. Dyer points out, is the great fault of the time. Capital is doing it and labor is doing it. Everybody is out to "get his," regardless of the other fellow, and so long as this is continued there will be no relief. The only real remedy is to bring production up to consumption. When that is done there will be plenty for all at reasonable prices and people will live much more comfortably and contentedly than they do now, even though they do not handle quite so many dollars.

It is pretty early in the season for the price of coal to be going up, but Portsmouth has already been hit to the tune of one dollar a ton, and there have been even larger increases in some other cities. Nothing is more certain than that the consumer must foot the bills created by frequent and large increases in the cost of production.

The Democrats of Rockingham County are to have a big dinner in this city on the 14th, and it is announced that from that time until election day they are to work in their shirt-sleeves, so to speak. And of course the Republicans are confident that it will be necessary for them to do that. This is going to be a year of big politics in the United States.

Men who would like to help the housing situation in Boston complain that some of the building and health laws are oppressive to such a degree as to restrict building operations, and their complaints are receiving attention. The matter is to be looked into and if relief is found necessary it will probably be forthcoming. Making conditions prohibitive is not the way to supply the demand for houses—in Boston or anywhere else.

The Coolidge presidential boom has shrunk to infinitesimal proportions. In a straw vote at the Boston University College of Business Administration the other day he received one vote, which tied him with William Jennings Bryan. The leaders were Wood and Hoover, who were also tied.

The New York Legislature has swept up the Socialist members and dumped them all into the discard. There is a wide difference of opinion as to the wisdom and justice of the action, among those ranged against it being Col. Theodore Roosevelt, who evidently possesses some of the independence and fearlessness of his distinguished father.

The sugar situation is again to be investigated, it being charged that Cuban sugar is being brought into the country through Louisiana in order to take advantage of the 17-cent rate allowed on sugar from that state. Big business appears to be able to find loopholes faster than the government can plug them.

LITTLEFIELD
ASSISTANT TO
CAPT. SANDSRhode Island Man Appointed
to Office in First Coast
Guard District.

By reason of the transfer and advancement of Frank H. Lincoln, formerly assistant to Superintendent H. H. Sands of the First Coast Guard District, Keeper Oswald A. Littlefield of the Third District has been designated as Mr. Sands' assistant and has now assumed that duty.

Mr. Littlefield was born at New Shoreham, R. I., June 1, 1890, and entered the former Life-Saving Service as surfman No. 9 at Sandy Point Station, Block Island, R. I., Sept. 1, 1907. He continued on duty at that point until the fall of 1913 when he resigned for the purpose of taking a special course of study which he completed and again registered in the Service on August 1, 1914. He was permanently rated a No. 1 surfman on November 1, 1915, and served as such until appointed Acting Keeper of Station No. 60, Block Island, R. I., March 15, 1915.

During the period of the war, a Naval Section base was established in the New Harbor, Block Island, by reason of the advantageous location of this island at the entrance of Long Island Sound. The assistance rendered by Mr. Littlefield and his crew during this time was very frequent and of a varied nature, one of the most important being incident to the stranding of the U. S. dreadnought Texas during August, 1917, when all messages of a private nature were relayed from this ship to Naval Headquarters by expert signmen (surfmen) from Station No. 60 who were posted on the beach day and night for that purpose. The rescue of eleven men from the sinking tug "Clarence Blacklock" drifting to sea in a northwest gale during the winter of 1918 was also accomplished at great peril to all concerned.

On July 12, 1920, Mr. Littlefield was transferred to Station No. 58, Watch Hill, R. I., one of the most important and best equipped on the Atlantic Coast, and the most important maintenance work performed during his duty at that point was the rescue of four persons from two barges that were part of a tow of the disabled tug "Neponset" and which were drifting to sea on the night of December 6, 1919. In effecting this rescue, it was necessary to proceed seventeen miles to sea in a power surfboat and return to shore the following morning in a 60-mile gale.

A while on duty at Station No. 60, Keeper Littlefield was officially commended by Commanders Harold S. Vanderbilt and H. M. Morrison of the Block Island Station, Second U. S. Naval District, for his expert assistance and cooperation in the performance of all duties assigned him in connection with the operations of naval craft, especially during the period of enemy submarine activity when extreme vigilance in all duties were of the utmost importance.

GOLDEN RULE CIRCLE
HAS NOVEL PARTY

After its regular meeting Monday evening the Golden Rule Circle of King's Daughters of the Middle Street Baptist church held a juvenile party and the event was one of the most novel and enjoyable of any gathering of the King's Daughters this season.

The usual business meeting was held and it was voted to give a hundred dollars to the Middle Street Baptist church as an Easter offering. Plans were also made for a silver tea to be held in the Baptist chapel on April 20, with Mrs. Jesse Hunt as hostess. There were 65 members present at the meeting and at its adjournment the time was devoted to sociability.

The members of the Circle were dressed to represent children from the age of five up to young misses. There was a marked variety of costumes; some wore outdoor suits, for, dainty gowns, and had their hair in curls or hung in braids. Some of the materials were especially good and merrierment reigned during the evening.

Juvenile games formed the entertainment and a Jack Horner Pie made by Mrs. Charles Badger was a feature of the occasion. This was as large as a small tub, covered with yellow paper and ornamented on the top with Easter lilies of crepe paper. Mrs. Charles W. Taylor impersonated Jack Horner and each member of the Circle pulled out a "quinn" from the pie, these being Easter favors of various kinds.

Ice cream cones were provided by the hostesses for all and all enjoyed the novel party to the fullest extent. The affair was in general charge of Mrs. Arthur Horton, Mrs. Charles Badger, Mrs. Adam de Rochemont, Mrs. Charles W. Taylor, Mrs. Amos R. Locke.

The Golden Rule Circle has now 110 members having more than doubled its membership the past year.

Keep up with Portsmouth by reading The Herald every day.

LEGION BALL AT KITTERY A BIG SUCCESS

Merry Masquerade Party Conducted by Wallingford Post.

The social set of Kittery turned out in large numbers on Monday night on the occasion of the first concert and masquerade ball under the auspices of the Henry Wallingford American Legion Post, No. 89, held in Wentworth hall.

Being the public event of this organization of World War Veterans nothing was left undone to make it a great success and the legion deserves much credit on its first attempt in producing such an entertainment.

The hall was a scene of beauty in its decorations of American and foreign flags and various colored bunting and is said to be the most attractive

work seen in the town in many years. Seventy-five people were on the floor in line costumes which caught the eye of the spectators. Miss Mildred Gerry was awarded \$5 for the best costume and Howard Paul took book for his rig as a Hawaiian gentleman.

Alcott's Orchestra provided most excellent music throughout the evening. The post realized a nice sum from the sale of candy from the booth that was well patronized by the guests.

The whole affair was in line for many compliments from the citizens of Kittery and there is little doubt that the Wallingford Post scored a big hit and will not be strangers in entertainment circles in the future.

George O. Wilson Jr. was the chairman of the general committee and with his assistants showed what can be done to please the public in a dance hall.

Minard H. Hutchins acted as floor director and was ably assisted by Fred W. Draper and Dwight F. Walker.

"CUDDY" MURPHY GOES TO TORONTO

Joe "Cuddy" Murphy, famous son of Dartmouth, is no longer a big league. The ponderous pitcher has been shipped out to Toronto of the International League, by Manager Ed Barrow of the Red Sox.

Barrow took a heap of Murphy and tied the strikes to "Cuddy" before turning him over to Duffy. According to those who have seen Murphy (and he is bound to develop into a star. He is credited with having the stuff both physically and mentally to make good and should be called by the Sox at the end of the season.

LODGE DENIES THAT HE FAVORS HOOVER

Washington, April 5.—Senator Lodge today denied reports that he favored Rogers C. Hoover as second choice candidate for the republican nomination at Chicago. The busy Senate leader reiterated his intention to propose the name of Governor Coolidge should the latter wish him to do so. More than that Senator Lodge has no plans to divulge at this time.

It is fair to say that Senator Lodge shares the views of a great many "middle-class" "lodge" that it will be impossible to nominate Hoover at Chicago because of his lack of party record. They regard Hoover as "very vulnerable" politically. Moreover they anticipate a convention run on the usual lines with respectable deference to the independent element in the party, but a fixed resolve to select a candidate of the "day in the acceptance" type, who will not keep reminding us nights worrying about "what he is going to do tomorrow."

FORT CONSTITUTION NOTES

This dance is to be the first of a series of dances to be conducted throughout the season. Extra transportation will be furnished to accommodate the people from Portsmouth and vicinity.

HINES ASKS \$420,727,341

Washington, April 6.—Congress was asked formally Monday to appropriate \$420,727,341 to wind up the affairs of the railroad administration.

In requesting the fund Walker D. Hines, railroad administrator, placed the loss resulting from the government's experience in federal control at \$300,478,756. In addition, the government has \$665,803,500 owing it by the roads, the money having been advanced for operating expenses and betterments. Ultimately this fund will be repaid.

Mr. Hines explained that no allowance had been made in this request to cover any claims the roads might have against the government for maintenance of the lines, because the net amount for this purpose could not yet be estimated.

Before the carriers were returned to private operation last March 1 Congress appropriated \$1,450,000,000 for the expenses of the railroad administration, and the new request to liquidate its affairs would bring the total appropriations to \$1,770,727,341.

The losses incurred by the government included \$677,513,152 for the operation of the so-called class one roads. Operation of smaller lines, sleeping and refrigerator cars and steamship lines caused a loss of \$13,011,129 and inland waterways \$2,449,739. The American Railway Express was operated at a loss of \$38,144,742, while miscellaneous losses were listed as aggregated \$125,438,911. In addition the expenses of the central and regional organizations of the railroad administration were placed at \$13,251,980, and \$4,456,222 will be required for its expenses from last March until next January.

Mrs. Morgan came out of her home with a pitchfork and it is claimed by McMurphy, she struck Mrs. Morgan three times causing painful wounds. Mrs. Morgan claimed that McMurphy attempted to strike her with a hammer. This was denied, claiming that all she did was to drive the Morgan rooster from the premises.

BURGLAR BEGINS OPERATIONS ON MONDAY NIGHT

Cleaned Out Silver in Edwards' House on Pleasant Street.

Once more the house burglar is back with us and doing business in the same old way. During the winter the people here had a rest from this man and thought he might have went out with the flu. He appears to be very much alive and possessed of as much agility as ever and began the season's operations on Monday night at the residence of James W. Edwards No. 283 Pleasant street, where he cleaned out everything in the line of small silver in possession of the Edwards family. There is nothing new in his method of operating. He rammed a kitchen window, proceeded to the dining room where he helped himself to the contents of the two sideboards and what

he found on the table. He left the large silver behind.

The family estimate that the stolen property is worth between \$200 and \$300. A small dog in the house did considerable growling and barking but the thief paid no attention to the noise. The man is thought to have been inside the house about 15 minutes.

Mr. and Mrs. Edwards were in their room upstairs at the time, but being used to the customary barking of the dog at night, did not seem to realize they had the same caller that has been a mystery to people and police for some time.

It is evident that the burglar had been watching the house and knew just when to get busy. The maid, employed by the family, left the house about 15 minutes before Mr. Edwards applied the alarm in the rear of the dwelling, off Gates street. He left by the window which he entered.

Silver knives, forks, dessert spoons, tablespoons, teaspoons, trays, and other valuable articles are missing.

EASTER BALL A PRETTY PARTY

Knights of Columbus Made Great Success of Easter Ball--Decorations a Feature

Portsmouth Knights of Columbus No. 140, entertained a very large party at Freeman's hall on Monday evening, the occasion being its annual Easter ball. It was a bigger and better than ever and one of the prettiest parties of the season. There was a very large dancing crowd and the galleries were also filled. It was a breezy affair and one of the most enjoyable affairs ever managed by the Knights.

The hall was in Easter decorations, the prevailing colors being lavender and white, a most pleasing combination. From the center of the hall, a canopy, hung with Easter lanterns, radiated to all sides of the galleries and these in continuous movement by the air, gave it the

draped with lavender and white bunting and above this American flags were festooned. The gallery facade had adornments of lavender and white.

Mayor and Mrs. Albert Hissop were the guest of honor and they were received by a reception committee headed by Grand Knight McCarthy and escorted through two rows of members to the reception room.

Marden's orchestra of twelve pieces gave an excellent concert program and played for dancing and they gave great satisfaction.

There were a list of twenty dances and with the extras they kept the dancers busy until one o'clock this morning.

The dance orders were very pretty and on the outer cover was the emblem of the Knights of Columbus.

The dances were as follows:

One Step, Waltz, Fox Trot, One Step, Waltz, Fox Trot, Fox Trot, Waltz, Intermission, One Step, Waltz, Fox Trot, One Step, Fox Trot, One Step, Fox Trot, One Step, Fox Trot, Waltz, Extra.

The grand march was led by Mayor Albert Hissop and Miss Agnes McCarthy.

The floor was in charge of Christopher Heffernan as floor marshal, with John Thomas chief aid and the members of the Council as aids. The following are the officers of the council:

Grand Knight—James A. McCarthy, Deputy Grand Knight—John M. Thomas.

Chancellor—Peter Hickey, Recorder—John D. Lane, Financial Secretary—Stephen Brooks.

Treasurer—John Sheehan, Advocate—Timothy Keilher, Warden—Timothy J. Cammer.

appearance of an endless whirl. Over the stage was a large painting representing the landing of Columbus and over this, hundreds of the Knights in electric lights. The stage was otherwise decorated with flowers, pink and yellow roses being brought in a table arranged at the front.

To the right of the stage an improvised dancing room had been arranged and for this the Portsmouth Furniture had loaned some fine furniture.

This was enclosed by a lattice trimmed with tulle, while tall palm added to the artistic effect.

The side walls of the hall were
